

January 11, 2005

Original Living Christmas Tree Co.
1111 Hawthorne blvd. #132
Portland, OR 97214

Dear :

We are having a planting on Martin Luther King Jr. Day, January 17, 2005. We will be planting the Christmas Trees then. To fulfill our agreement that you need to see the sight, you are welcome to join us then and see how the trees can benefit the area. I will be glad at that time to take some digital pictures for you and mail you a disc so you can use the pictures for promotional purposes.

The trees are beautiful. They seem to be good quality and we are very pleased to have them along our restoration site. They will be a great benefit to the stream corridor.

from the Tualatin Watershed Council will also be joining us for the event. Her organization has donated some plants.

I also extended an invitation to who is working for the City of Lake Oswego on restoration sites.

I believe S (SOLV) will also be with us on site.

The concept of renting and returning the trees is wonderful. Definite benefits to those who love to share in the joy of a tree at the holidays but would rather then have it return to its native land. Your idea of renting the trees makes the ability to have a live tree much more convenient.

Thank you for choosing SOLV and Friends of Carter Creek as recipients of your beautiful trees, our fish and wildlife will be thrilled at the addition.

Happy New Year to you!

Friend of Carter Creek
